Figure 1: A plot showing the distribution of points in the XSHA0 plane, with the X-axis labeled 'XSHA0' and the Y-axis labeled 'V'. The plot displays a large, light gray shaded region, likely representing a confidence interval or a model prediction. The region is bounded by a dashed line and contains several points marked with blue circles and numbers. The points are labeled with numbers 1 through 41, indicating different data points or observations. The plot is divided into four quadrants by the XSHA0 and V axes. The XSHA0 axis ranges from approximately -10 to 10, and the V axis ranges from approximately -10 to 10. The shaded region is centered around the origin (0,0) and extends along the XSHA0 axis. The points are distributed across the plot, with some points located within the shaded region and others outside. The points are labeled with numbers 1 through 41, indicating different data points or observations. The plot is divided into four quadrants by the XSHA0 and V axes. The XSHA0 axis ranges from approximately -10 to 10, and the V axis ranges from approximately -10 to 10. The shaded region is centered around the origin (0,0) and extends along the XSHA0 axis. The points are distributed across the plot, with some points located within the shaded region and others outside. The points are labeled with numbers 1 through 41, indicating different data points or observations.

Figure 1: A plot showing the distribution of points (black dots) and their corresponding labels (numbers) in the XTSP109 region. The plot is divided into four quadrants by a horizontal line at y=0 and a vertical line at x=0. The points are clustered in the upper half (y > 0) and are labeled with numbers from 0 to 41. The labels are color-coded: blue for positive values (0-41) and red for negative values (-1, -2, -3, -4, -5, -6, -7, -8, -9, -10, -11, -12, -13, -14, -15, -16, -17, -18, -19, -20, -21, -22, -23, -24, -25, -26, -27, -28, -29, -30, -31, -32, -33, -34, -35, -36, -37, -38, -39, -40, -41). The plot is titled "XTSP109" and includes a scale bar at the bottom right indicating a distance of 100 units. The axes are labeled "V" (vertical) and "H" (horizontal).

Figure 2: A table showing the distribution of points (black dots) and their corresponding labels (numbers) in the XTSP109 region. The table is divided into four quadrants by a horizontal line at y=0 and a vertical line at x=0. The points are clustered in the upper half (y > 0) and are labeled with numbers from 0 to 41. The labels are color-coded: blue for positive values (0-41) and red for negative values (-1, -2, -3, -4, -5, -6, -7, -8, -9, -10, -11, -12, -13, -14, -15, -16, -17, -18, -19, -20, -21, -22, -23, -24, -25, -26, -27, -28, -29, -30, -31, -32, -33, -34, -35, -36, -37, -38, -39, -40, -41). The table is titled "XTSP109" and includes a scale bar at the bottom right indicating a distance of 100 units. The axes are labeled "V" (vertical) and "H" (horizontal).
